

# Mosaic Flower Vase

Grades: 3-5

Time: 1 Class

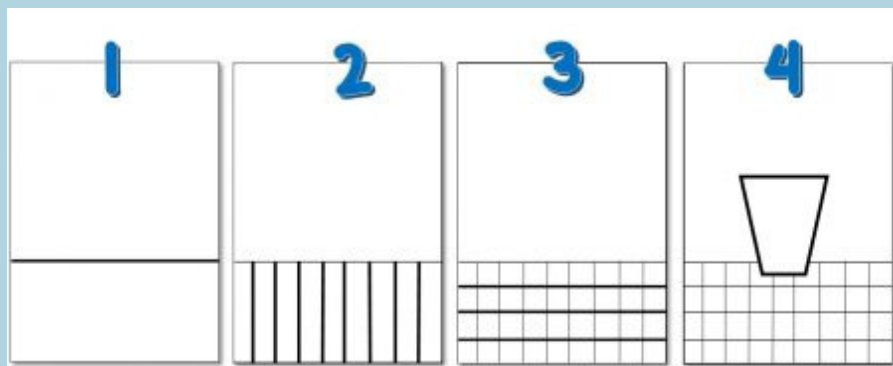

## Materials

- 8 1/2" x 11" white art paper
- crayons
- construction paper
- fine tip black markers
- glue
- scissors
- example of the project

# Instructions:

- Draw a horizontal black line one third of the way up from the bottom of the heavy piece of white paper
- On the small bottom section, create a “checkered” tablecloth effect by drawing squares
  - Draw all the vertical strokes first, next add the horizontal strokes
- Draw the outline of a vase using the fine tip black marker
  - Make the bottom Dip below the top line of the tablecloth. This will make the vase appear to be sitting on the table. (Don’t worry about a line showing through - it will be covered by construction paper.)

- Create the look of wallpaper by drawing wavy lines from the tip of your paper to the edge of the tablecloth. Be careful to work around your vase

# Instructions:

- Using crayons, PRESSING HARD, color the tablecloth
  - Create and “every other” checked pattern
- Cut the multi-colored squares from the construction paper
  - Glue onto the vase creating a mosaic appearance
- Tear larger shapes from the construction paper to glue above and around the vase
  - These shapes will represent your flowers
- With the fine tip black marker, add swirls and loops inside the flower shapes to create the look of petals.
  - Add stems with the black marker
- Sign your name (and the year, if you wish) with a black marker or crayon.
